Dearest Mom, Pop & Sis - Hope
by now Alice's place is either sold
or rented so you can all relax.
Been having a week of grand wea.
90° was hottest, but not complaining
for water is very cool, & no
humidity with our heat & after
weeks of cloudy or rainy wea.
The heat feels rather good, but
hard on the water bill. Probably
be 10% this month - for a state with
so much water their water bills are
a racket! But just can't let the
faun die out entirely. Been busy
sorting letters, drawers etc - a job
I dislike - but so much "getting ~~ready~~
ried" to be done in the event we're
moved within 6 months. The last
2 moves have been so piece meal.
Things are still in a messy confusion
when you coming up for your visit.
Anytime is fine with us. Love
Abe & Coop
